

# THE SURPRISE BIRTHDAY PARTY

Hafsa Tak

Once upon a time there  
was a girl called Nila.  
It was her birthday.  
She was so excited.  
She turned 6 years old.  
She had a small sister  
called Olivia.  
Olivia was 4 years old.

Nila was in the 1 grade and Olivia was in kindergarten.

Nila went to school with Olivia.

In school everyone sang, "happy birthday to you".

Then they had to do maths.

When they did maths Nila was thinking about her birthday.

She thought that her mom and dad forgot her birthday.

Then there was a break.

Everyone wanted to play with Nila.

But she could only choose one.

So she chose her best friend Lilly.

I want to  
Play with  
Nila

No I want to  
play with  
Nila

So Lilly and Nila played  
a lot together.

Then it was home time.

At home everyone told  
do not go in your room.

“Ok”, Nila said.

So she played with her  
Barbie in her moms  
and dad’s bedroom.

She was wondering  
why she had to be out  
of her room.

After playing with her  
Barbies she went in the  
park with her little  
sister Olivia.

She met so many  
friends. She played  
with all of her friends

So she went back home.

At home she did her homework.

Her homework was hard for her.

She had questions like  $7:4=1R3$ .

It took 30 minutes to finish her homework.

She was struggling.

When she finally finished her homework she took a big scoop of ice cream.

Because It was her birthday.

She was still wondering why she is not allowed to go in her room.

Then she was finally  
able to go in her  
room.

So she went in her  
room.

In her room there  
were all of her  
friends.

Happy birthday said  
everyone.

There were so many  
presents.

Nila was really  
happy.

So they celebrated  
Nila's birthday.
